Subject:
CA, SCID, LFS and DNA-profile

Reference:
MZu/LGo/20110228

Date:
February 2011

Dear Mrs. Andersson,

In January 2011, the mutation for Cerebellar Abiotrophy (CA) in horses was described in the scientific literature. This has allowed the Dr. Van Haeringen Laboratorium (VHL) to offer the DNA-tests for the three main genetic disorders in Arabian horses CA, SCID and LFS in one package for a very competitive price.

We are aware of an increasing need for quality control. Therefore, we automatically determine the DNA-profile when ordering the combination of the DNA-tests for CA, SCID and LFS. This procedure enables the independent verification of the sampling procedure. When ordering a DNA-test for a single DNA-test we consequently offer this option at a reduced price.

Please find below the price options.

Test	Single samples	Studbook price
CA only	€ 42,50	€ 35,00
SCID only	€ 40,00	€ 30,00
LFS only	€ 40,00	€ 30,00
Optional: Add DNA-profile	+ € 15,00	+ € 12,50
CA + SCID + LFS + DNA-profile	€ 70,00	€ 55,00

For information about other DNA-tests visit our website www.vhlgenetics.com. Please contact us for the procedure to arrange your Studbook Price.

Best regards,

Wim A. van Haeringen
